Built to last

Manufactured in the UK

Sustainable choice

uPVC Casement Window

The classic window design with all the options you need.

Our casement windows are suitable for almost any size of aperture or design layout, including bay and bow windows. It is an internally glazed system that can be specified with single top or side hung openers and multi-lights.

Features

- Advanced design features reduce heat loss and lower energy bills
- Superior seals help block drafts and reduce noise
- Featuring industry-leading security with multi-point locking for peace of mind
- Available in a wide range of designs, colours and glazing options to suit your home

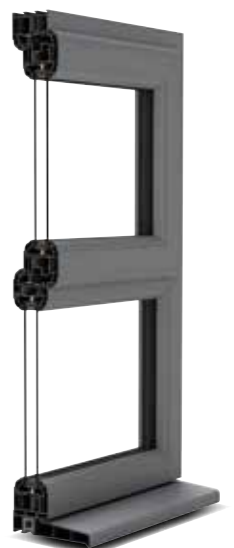

Profile Shape Options

Chamfered

Sculptured

uPVC Residential and French door

Our Residential and French Doors offer a perfect match with your windows.

Enjoy seamless style and lasting quality with our Residential and French Doors. Designed to perfectly complement your windows, these doors offer exceptional security, durability and a wide range of finishes to suit your needs.

Features

- Choose between Sculptured for a more traditional finish, or opt for Chamfered for a contemporary look
- Superb energy efficiency and thermal performance
- High security multi-point locking systems as standard
- Choose from a stunning range of style and colour options

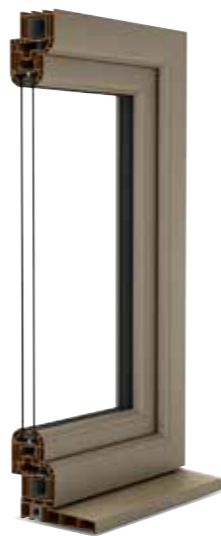

uPVC Tilt & Turn Window

A stylish, practical window for high, exposed or difficult access locations

Our tilt & turn window offers you maximum natural light while enjoying practicality and peace of mind. The tilt and turn design allows you to tilt the window inwards, for ventilation, or alternately open fully inwards which allows for easier cleaning. With its streamlined design and secure locking system it's the perfect choice for any home with hard-to-reach spots.

Features

- Maximise light with bigger glazing options
- Sleek design with contemporary lines
- Practical and versatile solution
- Ease of access and cleaning
- Advanced security, with built-in restriction
- A wide range of design and colour options to choose from

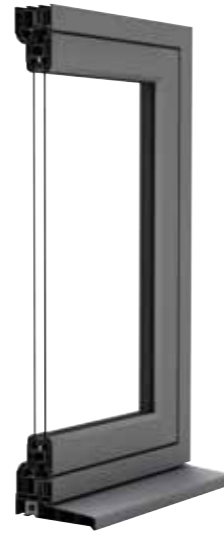

Flush Casement Window

Our Flush Casement Windows elegantly and accurately replicate the original features and classic sightlines of traditional timber windows. However, their versatility also allows them to be designed with the contemporary, sleek lines typically associated with aluminum windows.

As the name indicates, flush windows close neatly into the outer frame, creating a clean and sophisticated appearance. They are available in a stunning selection of both period and modern colours, as well as authentic wood-effect finishes to complement any property type.

Features

- Slim sightlines and beautiful, authentic proportions
- A versatile choice, suitable for both traditional and contemporary homes
- High security, multi-point locking system
- Excellent energy and weather performance
- Built to last and requires minimal maintenance
- Choose from a wide range of colour, finish and heritage hardware options

Vertical Sliding Sash Window

Experience the timeless elegance of traditional sash windows, reimagined for modern homes. Our Sliding Sash Window delivers unmatched authenticity and exceptional performance. Enhance your heritage property or add understated style to your home with windows that offer classic good looks, superior thermal efficiency, and uncompromising quality.

Our vertical sliding sash window range combines the elegance and heritage features of traditional sash windows with all the benefits of modern materials. Manufactured from premium grade, sustainable uPVC they are durable, will not rot, warp or require repainting.

Features

- Impressive energy and thermal efficiency
- Authentic proportions and sightlines to replicate traditional sash windows
- Highly durable with excellent weather performance
- Available in a stunning choice of colour and woodgrain effect finishes
- Traditional hardware options available

Sliding Patio Doors

Choose our market-leading uPVC sliding door system by PatioMaster; offering the perfect blend of style and versatility. These smooth-gliding, easy-to-maintain sliding patio doors add sophistication to any extension or conservatory project, transforming your living space and seamlessly blending the indoors with the garden.

You can choose from two, three or four panes of energy-efficient, toughened glass. All our sliding doors feature a stainless steel easy-glide track system so they open and close with minimum effort. As ever, security is uppermost in our thoughts, so the handle and locking have opposing hooks that prevent the leaf from being lifted from its frame for complete peace of mind.

Experience the difference with PatioMaster. Step into a brighter, more comfortable home and let the light flood in. shootbolt-type locking points to deliver a 10-point locking upgrade.

Features

- Enjoy superior weather protection and energy performance
- Low sightlines for maximum light and a sleek finish
- Robust design built for lasting strength and durability
- Advanced multi-point locking system keeps your family safe and sound
- Multiple configuration options with up to 5.9m opening
- Available with double and triple track sliding options
- Low-track low-threshold options for ease of access

Aluminium Windows and Doors Range

Our aluminum windows and doors provide an ideal solution for anyone looking to achieve a modern, sleek appearance for their home. With ultra-slim sightlines, they maximise natural light, creating a bright and inviting space. Designed and manufactured using cutting-edge technology, our aluminum windows and doors boast outstanding energy efficiency and have an impressive lifespan.

Aluminium Flush Casement Window

Our Aluminium Flush Casement Window offers a sleek, flush design that provides exceptional sightlines and a minimalist appearance, making it the perfect choice to complement contemporary architecture.

These casement windows can be configured with left, right, or top openers, allowing you to tailor them to your specific needs. Since all of our windows and doors are custom-made, your window will be perfectly designed to suit your home.

Features

- Market leading slim sightlines for ultimate kerb-appeal
- Robust hardware with multiple locking points for reassuring security
- Crafted from high-grade aluminium for superior durability and strength
- Energy efficient and high security
- Low maintenance, with minimal upkeep required
- Available in a wide range of colour and style options

Aluminium Flush Tilt and Turn Window

The Flush Tilt & Turn window offers a dramatic expanse of glass that maximises light and views.

Our aluminium Flush Tilt & Turn window has a strikingly slim sash that sits flush against its frame, creating an elegant, streamlined finish. It gives a dramatic expanse of glass that maximise light and views to create a sophisticated space with the added benefit of easy access for hard to access locations.

Features

- Contemporary slim sightlines for maximum light
- Flush frames for a streamlined, contemporary finish
- The perfect solution for hard-to-reach locations
- Industry-leading multi-point security and restrictors
- Excellent energy and thermal performance

Aluminium Flush Doors

We offer an impressive selection of aluminum front and rear entrance doors, as well as elegant French doors.

Aluminum doors feature slim frames and a larger glass surface, allowing more natural light to fill your home. This material not only provides a stylish, high-end look but is also practical, requiring minimal maintenance. Aluminum is weather-resistant, easy to clean, and will never rust, peel or flake.

With various configuration options, including side panels and fanlights, along with a beautiful range of colors, you can design a door that perfectly complements your home's aesthetic.

Features

- A wide range of configuration options to choose from
- Superior quality hardware for ultimate security performance
- Fully flush finish for with slim sightlines to complement modern architecture
- Excellent energy and thermal performance

Aluminium Inline Sliding Door

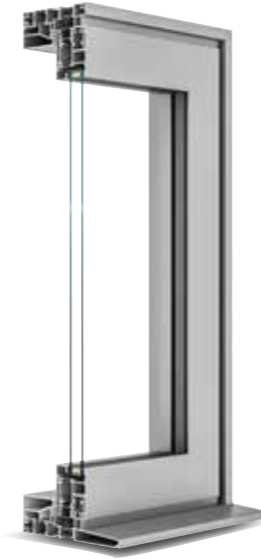

Maximise the light flooding into your home and seamlessly blend home and garden, creating a truly spectacular space with panoramic views. Elevate your home with our inline sliding aluminium door. Every detail, from the innovative patented features to the intelligent design, is created with you in mind.

With the trend for large expanses of glass that give unrestricted views to the outside or adjoining room, our Inline Sliding Door opens up endless possibilities. It has a stunningly sleek aluminium profile, with a slimline interlock and flush appearance for a truly contemporary finish.

The system has been thoughtfully designed to maximise natural light and deliver next-level aesthetics for today's modern interiors. It's available in 2, 3, and 4-pane configurations with a maximum total width of 6500mm, so it offers design flexibility to support all architectural requirements.

Features

- Market-leading slim profile allows the glass to take centre stage
- A sleek flush finish delivers the ultimate contemporary aesthetic
- Robust security built in as standard for total peace of mind
- Energy efficient and high performance
- Choice of 2, 3, and 4-pane options

Aluminium Bifold Door

Slimline folding doors are a spectacular way to open up a property and create a seamless link into the garden.

Crafted from high-quality aluminium, our slimline bifolding doors offer outstanding thermal efficiency and security performance, ensuring a warm and safe home environment. Embrace the abundant natural light and transform your home with these sleek and versatile slimline doors.

Thoughtfully designed with slim glazing profiles and low threshold options, our bifold doors offer a contemporary and minimalist aesthetic, opening up a world of possibilities for your home.

Features

- Enhanced thermal performance with excellent energy efficiency
- High security with Secured by Design option for total peace of mind
- Exceptionally slim sightlines deliver maximum glazed area and light
- Manufactured in the UK using premium grade aluminium
- A range of configuration options - with up to 7 sashes
- A wide choice of colour and finish options to suit your home

uPVC Colours and Finishes

Aluminium Colours and Finishes

Aluminium windows and doors colour range

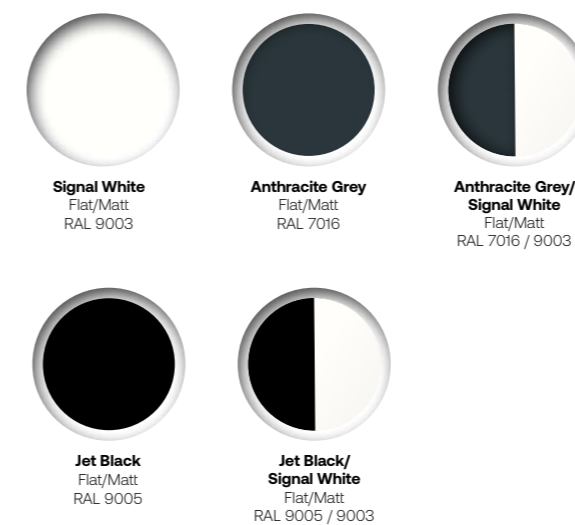

Colour Range

Made to Order Colours are available with white uPVC internal faces, or foiled on both sides on a complementary base colour for better looking installations.

Colour Range

In addition to our selection of stocked colours below, we can supply profiles finished with any gloss level, in any RAL colour, or any dual colour combinations. Finished with a tough, durable polyester powder coat, certified to the Qualicoat standard.

Composite Doors

Composite doors combine modern materials and advanced performance with traditional looks to enhance the character of your home.

GRP Composite Doors

Our **Diamond Range** GRP composite doors are superior energy efficiency and minimal maintenance.

The GRP composite doors are manufactured with a high insulation foam core, which delivers outstanding thermal performance, to keep the heat in and the cold out.

Durable glass reinforced plastic (GRP) skins provide a rich, authentic timber grain in a range of traditional and contemporary colours that are highly resistant to denting, peeling, flaking or fading.

High security locking and reinforced UPVC frame comes as standard to protect you, your family and your home.

Solid Timber Core Composite Doors

The **Encore Range** is the ultimate in composite door technology and performance.

Meticulously constructed from 48mm solid engineered timber core to provide reassuring strength and rigidity, not to mention its proven resistance to warping, twisting and bowing. Encore doors also use advanced Cool Skin heat reflective door skin technology to reduce heat absorption, and offer improved scratch resistance and weather performance.

The Encore range has been carefully produced using only the highest quality materials, built to last and has been subject to rigorous testing, giving homeowners total peace of mind.

Home Extension and Conservatory Transformation

hup! is the revolutionary, highly energy efficient new way to extend your home and create beautiful, bright living spaces, with minimal disruption.

hup!
The better way to build

Ultimate Design Flexibility

- Vaulted, sloped or flat ceilings
- Choice of Ultraframe roof systems
- Any wall finish, including brick, render or cedar
- Windows and doors anywhere, any style, any shape
- Unrivalled choice of rooflights

Five Times More Energy Efficient

- Keep energy bills low
- Lower emissions
- Zero waste production methods
- Increased comfort indoors

Five Times Faster To Build

- Save weeks or months off build times
- Rapid connection technology
- Build in any weather
- Less mess and disruption

High Quality Finish Every Time

- Designed with advanced manufacturing software
- Built by a trained and experienced hup! build team
- Made to measure components for a perfect build, every time

One Supplier, One Project

- Fully project managed for you
- No need for an architect
- No need for independent structural calculations
- Reliable timelines
- Cost certainty and clear pricing

Kind to the Planet

- 60% more carbon efficient to manufacture vs brick
- Zero waste in production and on site
- Re-use basework
- ISO 140001 Environmental Management Accredited
- Lower ongoing energy usage - less emissions

Extensions

Transformations

Conservatories

Garden Homes

Conservatory Transformations

Extension-like conservatory upgrades

If you have ambitions for your old conservatory, then hup! is the simple solution. Within a matter of weeks, hup! can transform an old conservatory into a modern, energy efficient extension that feels like it is now part of your home. hup!'s lightweight, energy efficient walls are quick, easy, and cost effective to build onto existing bases.

Upgrade to a high performance glass roof, or choose a super-insulated solid roof with rooflights to transform the thermal performance of your conservatory and still keep the natural light in any adjoining rooms.

With super-insulated walls, your new hup! will be energy efficient enough to turn your old conservatory into a modern open plan extension by removing internal doors and opening the space up to the rooms beyond.

Lantern Roof and Orangery

The purpose designed Stratus aluminium lantern roof system is discreet yet stylish.

Stratus allows light to flood into your home's interior, the ideal modern lantern solution, coupling sleek contemporary looks with truly outstanding performance.

Designed from the ground up around an innovative thermally broken system, it provides excellent thermal performance - keeping cool in the summer and warm in the winter - while delivering the architectural refinement you'd expect of a high end aluminium lantern system.

Whether you are building a new kitchen-diner extension or replacing an existing lantern roof, Stratus will help redefine your home, creating light and airy spaces for you to enjoy.
